

South Asian Wedding Extras

The following Document will offer you the different services that you may need when planning a South Asian Wedding with each of the events that they entail.

Mehndi

Bridal Mehndi

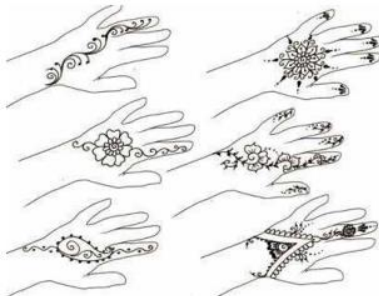

We recommend having the Bridal Mehndi done 2-3 days before the wedding ceremony, in order to have the Henna with its best color during the ceremony. The bridal mehndi will be done at the bride's room. Please note that we do not recommend the following: any movement by the bride during the henna placement, showering for the next 24 hrs after the henna placement for better results, nor going in the pool or beach the day of or the day after the henna placement. We are able to customize designs and work with you on creating your personalized henna design, if sent to us at least 3 weeks before the wedding date. In case you have any tattoos in the areas where the henna will be applied, please send us pictures of the tattoos.
